EDUCATION

University

Bachelor of Science in Industrial Physics | GPA: 4.56/5.00　　　　　**Sep 20, 2021 - Aug 3, 2025**

- Coursework: Introduction to Programming I and II (C++, C#), Data Structures & Algorithms, Vector Analysis, Introduction to Space Science, Quantum Mechanics

SKILLS

Languages: C, C++, C#, JavaScript, TypeScript, HTML, CSS, Python
Libraries/Frameworks: React, EJS, Node.js(Express), Bootstrap, Tailwind CSS, Next js, React-Native
Databases: MongoDB, firebase
Tools: Git, GitHub, Unix, Netlify, Markdown, VSCode
Others: leadership, resourceful, video editing, digital illustration

PROJECTS

Daily Mart | https://github.com/NwobiaDavid/DailyMart　　　　　**Aug 2023 - now**

- I developed an e-commerce platform, Daily Mart, using React and TypeScript for the front end and Node js and MongoDB for the back end, enabling direct farm-to-consumer transactions.
- Implemented a responsive UI with Tailwind CSS and Bootstrap, optimizing user experience and facilitating seamless product listings and secure payment processing.
- Collaborated with a cross-functional team to ensure fast loading times and high-performance web applications.

NoteBook | https://github.com/NwobiaDavid/notebook　　　　　**Mar 2023 - Apr 2023**

- I developed a note-taking web application, "NoteBook," utilizing EJS, MongoDB, Node.js, and Express.
- Implemented full CRUD (Create, Read, Update, Delete) functionalities, enhancing user interaction and data management.
- Ensured secure access with authentication using Passport.js, contributing to data privacy and user security.

React Image Gallary | https://github.com/NwobiaDavid/image-gallery　　　　　**Aug 2022 - Sep 2022**

- I developed a React-based image gallery application, "React Image Gallery," with dynamic image retrieval from the Pixabay API, showcasing React and Tailwind CSS expertise.
- Enhanced user experience by implementing a pagination feature for efficient navigation through a large collection of images.
- Added functionality for users to download images directly from the gallery, providing a seamless interaction with the application.

Find a Job App | https://github.com/NwobiaDavid/reactNativeJobApp　　　　　**Aug 2023 - now**

- I built a mobile application, "Find a Job App," utilizing React Native, to display job listings sourced from the Jsearch API via Rapid API integration.
- Implemented a robust search feature, enabling users to efficiently filter and find relevant job opportunities within the app.
- Demonstrated expertise in mobile app development, showcasing skills in React Native and API integration to create a seamless job-seeking experience.

EXPERIENCE

Startup, *frontend developer*　　　　　**Oct 20, 2022 - Aug 12, 2023**

- I crafted visually appealing and responsive user interfaces, elevating the overall user experience of our web applications.
